

MITSUMI Keyboards

FQ-First Quality Line

MITSUMI Keyboards offer, in addition to their compact construction, a long life expectancy and an optimally adjusted key pressure point with improved key feel for exhaustion-free typing, even for longer texts. In addition to the abrasion-resistant keys and the low power consumption, MITSUMI keyboards are also equipped with a variety of special functions, according to model, which make working even more pleasant.

FQ 100 Keyboard Business

This keyboard has the special "FN" key functions, in order to set the key repeat rate or to lock the keyboard, for example.

FQ 120 Keyboard Classic

Durable, reliable, easy to use, and robust – the classic keyboard for all areas of use. In a neutral design.

FQ 180 Keyboard Ergonomic

An ergonomic typing position is achieved with the use of the included supporting surface for the hands. Ideal for exhaustion-free typing for longer texts.

FQ 2000 Keyboard Millennium

With 15 additional Hot Keys, computer commands consisting of several steps can now be executed with the touch of a button. In addition to pre-programmed keys – such as Internet access, shut down computer, or start application – there are also keys available for individual selections.
